With over **25** years of specialized experience, Quattro is an established leader in managing the day-to-day accounting and payroll functions of small and medium businesses

BACKGROUND

- One of the leading **Finance** & **Accounting** service providers in the US
- The client has ~125 employees across the country in different business units falling under different rules and procedures for all HR functions

THE CHALLENGE

- The Client was using two different platforms for their payroll and HRIS needs which required a high degree of manual entry/ intervention to keep the systems in sync.
- The HRIS platform was not integrated with payroll or any of their benefit carriers
- The client did not have a dedicated resource with either of their platform providers that could help answer their questions or provide guidance on system usage within reasonable time frames

OUR SOLUTION

- Quattro provided an integrated platform that offers a streamlined process for managing payroll and HR functions in one single portal
- Helped the client's HR team streamline on-boarding, time and attendance management, and benefit provider notification of employee changes.

RESULTS DELIVERED

- Streamlined HR workflows which eliminated the need for hours of manual effort
- Re-allocation of HR resources to more strategic initiatives
- Access to a direct point-of-contact/subject-matter-expert for personalized live guidance when needed
