1

Background

- One of the top American automotive parts distribution networks founded in 1974
- 40% of all Carquest stores were corporate owned and the remaining 60% were independently owned
- Offers accounting services to its individual stores

The Challenge

- CARQUEST wanted to focus on its core business of distributing auto parts
- Financial losses due to inefficient and inaccurate legacy reporting platforms
- Quality/timeliness of tasks were dis-satisfactory to independent stores

3

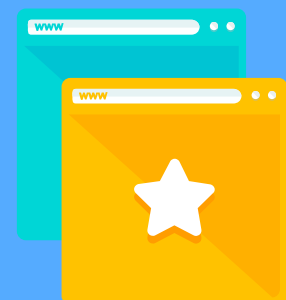

Our Solution

- Quattro became an endorsed PREFERRED provider of accounting services to Carquest's "Customers" and an EXCLUSIVE provider of accounting services for its "Loan Customers".
- Creation of a transition plan and dedicated accounting team to assume responsibility for providing monthly accounting services and timely financials.

Results Delivered

- Effective monitoring/ stringent controls
- Access to team of experts/expanded suite of accounting services
- Improved quality/timeliness of the accounting services
- Enables CARQUEST to focus on strategic company growth
