Get More from our People

Work with a reliable and relatable team.

Smart Sourcing

At Quattro, we work with you as a reliable and trusted partner, and extension of your team – ready to manage your business needs with a long-term vision. Beyond tactical approaches, we offer strategic moves with a shared responsibility to help you capture and translate opportunities.

Trusted Advisor Approach

Looking beyond the scope and cost parameters, we put your interest and needs first. We understand what you want to accomplish, and how and when you need to achieve it. We remain transparent and interpret your problems into solutions. We have honed our business and industry knowledge across several decades, which we provide along with our core service deliverables – often beyond the base expectations. Also, earning your trust is a privilege and it is something we work hard to never jeopardize.

Get More from our Process

Exceed operational objectives and business goals.

Our 3-fold approach ensures that we are best serving your initial and ongoing needs:

Lift and Shift:

The focus is on knowledge transfer of current processes and practices, which occurs through a methodical transition to the outsourcing model.

Standardization and Optimization:

We focus on eliminating redundant activities and processes, and deliver exponential improvements across functions.

Transformation:

In this phase, we focus on implementing process automation (RPA/AI/ML) and continued efficiency gains.

We deploy state-of-the-art technology infrastructure and maintain the highest standards of data and information security.

Get More from our Technology

Gain speed, efficiency and intelligence with our innovative tools.

We offer you easy-to-use and adaptable proprietary tools so you Get More to Go On to make agile business decisions. Our technology gives your leadership team more time in the one vital need in every business – the ability to focus on strategic objectives pertaining to the core business.

With Xport, you will have streamlined processes in place to accelerate business work-flows and efficiencies which will ultimately lead to attaining your goals. We have designed and developed our proprietary Xport customer portal as a platform to streamline and digitize the business and operational processes for clients onto a single platform with role-based access and, more importantly, real-time visibility into business performance, including real-time drill-down reports – down to the invoice image or journal entry detail.

An innovative business intelligence and financial analytics tool, Xview enables businesses to measure and track overall KPIs, watch trends, and forecast in order to gain insights and transparency which ultimately boosts your bottom-line growth.

With best-in-class dashboards, alerts and reporting templates across multiple variables and dimensions, we provide end-to-end financial analysis at both individual and consolidated levels. This enhances your financial visibility and enables you to make informed decisions by looking and thinking ahead, and not doing business with a rear-view mirror approach.

F&A Services

**Focus on growth, leave the
finance and accounting to us.**

Quattro's portfolio of accounting solutions is designed to mitigate risks arising due to the lack of information and interpretation of data. We empower you to create economies of scale while delivering transformative benefits to the overall business. In short, we ensure that business owners, CEOs, CFOs and other decision-makers are able to function smoothly in an ever-evolving business environment.
