## **Our mission is to focus on your back-office support so you can stay focused on your mission**

Irrespective of the type of non-profit organization you run, we draw on our experience to help navigate your compliance landscape and varied reporting requirements while also enhancing financial controls and transparency. We help maximize your limited resources to meet greater needs without adding to overhead costs. We understand that when non-profit organizations are unable to meet their goals, it doesn't just disappoint Board members but also prevents them from meeting their commitment to fulfilling their mission. Our domain expertise allows us to understand your unique issues and challenges, helping to turn those into proactive actions to deliver the services needed.

**Leverage accounting best practices and highly trained accounting professionals with deep domain expertise**

**Optimize cash flow through timely and accurate reporting to external funding sources**

**Strengthen financial controls through segregation of duties and accountability**

**Increase financial transparency through enhanced internal reporting**

**Improve accounts payable, budget facilitation, financial forecasting, and cash flow management processes**

By partnering with Quattro, an accurate and reliable service provider, non-profit organizations are empowered to:

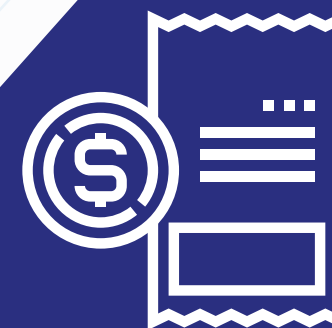

**2,800+**
