

Creating Operational Efficiency Through Technology

www.quattrobs.com

THE CHALLENGE

- Organizations creating multiple Excel spreadsheets outside accounting systems
- Error-prone manual data entry processes
- Slow financial reporting cycles
- Difficulty tracking program-by-budget performance
- Limited insight into financial position and liquidity

QUATRRO SOLUTION

Integrated System Implementation

- Set up "one source of truth" accounting and reporting systems
- Implementing integrated accounting platforms with single-source data environments

Automated Reporting & Analytics

- Created comparative reporting (budget vs. actual) within single systems
- Creating automated reporting with budget-to-actual analytics

Data-Driven Decision Making

- Provided expertise on data extraction for decision-making
- Enabling data extraction for informed decision-making with program-level financial visibility

Cash Flow Management

- Designed rolling cash flow projection tools
- Integrating accounting data with cash management tools

Process Optimization

- Eliminated error-prone manual data entry and side spreadsheets
- Supplied subject matter expertise while using more cost-effective resources for routine tasks

IMPACT

01

Reduced error rates and faster information turnaround with eliminated redundant processes

02

Lower operational costs with better-informed decision making at all organizational levels

03

Improved liquidity and cash management with enhanced ability to respond to changing circumstances
